

The logo for Seaforce Powerboats features the company name in a bold, white, sans-serif font. The text is enclosed within a stylized white outline that resembles the hull of a speedboat, tapering to a point on the right side. The background of the entire page is a gradient from red on the left to blue on the right, overlaid with a semi-transparent image of two inflatable powerboats moving across a body of water.

Commercial Environment	4
People	4
Vessel	4
Purpose	4

## Aim

A compulsory online course for anyone that wished to achieve a professional commercially endorsed skippers license. To provide confidence and a better understanding the regulations governing what commercial skippers do.

## Course Duration

6-8 Hours Plus 2.5 hours assessments

## Minimum Age

16 years

## What's Included

- Sign up to the course within 2 hours of application
- Online course login details
- Practical advice and assistance from an instructor even outside office hours
- The instructors personal contact number if you require advice during the course
- If you wish to have the quiet of a classroom setting to take the course we can provide that.

## Prior Knowledge and Experience

No prior knowledge or experience is required to undertake this course!

## Skills Gained

A good working knowledge of what legally is required for coding vessels under MCA codes of practise and what skippers and crew qualifications are required worldwide on the applicable vessels.

## Opportunities After The Course

One step closer to commercial endorsement! Check out the suggested courses.

## Suggested Courses

Sea Survival  
SRC (VHF) radio operator course  
First Aid

## Course Content

The course is broken down into four modules:

### **Commercial Environment**

How you fit into the professional maritime world.

### **People**

The importance of correct manning, keeping your skills up to date and the safe management of commercial vessels.

### **Vessel**

The compulsory carriage and maintenance of safety equipment and how to create and implement risk control and operating procedures.

### **Purpose**

Making sure your vessel is suitable and legal for the work you are carrying out, your obligations in protecting the environment, appropriate planning and situational awareness.

Once the modules are completed you can access a series of mock assessments in preparation for the final Scenario based and general knowledge assesment.
